

ABSTRACT SUBMISSION DETAILS

POSTERS

We are now welcoming abstracts for poster presentations. Poster presentations will consist of a three-minute lightning presentation with two minutes allocated for questions. Some poster submissions will be invited to give an extended oral presentation consisting of a ten-minute talk plus five minutes of questions. You may opt out of the extended presentation if you wish.

INTERACTIVE SESSIONS

In addition, we are now also inviting abstract submissions for interactive sessions. These may take the form of workshops, discussion panels, interactive talks or practical activities. Most interactive sessions will be timetabled for 90 minutes within the main body of the conference but there are a few places for longer pre-conference workshops to occur on Wednesday 5th July 2017. When submitting your interactive session proposal please indicate which days you are willing to run your session on and give further details of your requirements. Details on the link.

FURTHER DETAILS

To give all of the sessions structure we have 6 core themes and 3 crosscutting themes as illustrated in the table below. When submitting your abstract, you will be required to indicate which of the core themes it would fit into. There is also the option to indicate your cross-cutting theme.

	Core theme: PEDAGOGIC RESEARCH	Core theme: PRE AND PARACLINICAL TEACHING	Core theme: CLINICAL TEACHING	Core theme: WELLBEING	Core theme: ADMISSIONS AND WP	Core theme: ENGAGING WITH OTHERS
Crosscutting theme: DELIVERY						
crosscutting theme: INTEGRATION						
crosscutting theme: ASSESSMENT
